EXTENSION OF TERM

NOTE: "Extension of Time in Patent Cases (Supplement Amendments)--If a timely and complete response has been filed after a Non-Final Office Action, an extension of time is not required to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period.

If a timely response has been filed after a Final Office Action, an extension of time is required to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run." Notice of December 10, 1985 (1061 O.G. 34-35).

Sir:

AMENDMENT B

Preliminary to further examination, please amend the above referenced application as follows:

Please rewrite the second full paragraph of page 9 of the application as follows:

The lines and sheets that may be protected by the protectors therefore, are those that must withstand abuse such as from abrasion under hostile conditions, e.g., cold weather and salt air/water. If the line or sheet is swung thru an arc adjacent a rough edge, the protector along with enclosed line or sheet may be dragged sideways along rough edge resulting in the protector being subjected to dirt and abrasion while the enclosed lines are fully protected. In particular, the dragging action may cause an outside edge 80 of ~~the~~ a protector 82 to be pulled out and away from the spiral of the protector 82 when dragged in a direction as indicated at D in Figure 9. There are sufficient overlapping turns in the protector 82 to keep the line or sheet 84 fully covered and protected from the abrasive edge 86 as shown in Figure 9.
